The Institution has adequate infrastructure and physical facilities for teaching-learning viz., classrooms, laboratories, computing equipment etc.

Jagdish Nandan College, Madhubani (Bihar) boasts adequate infrastructure and physical facilities for teaching- learning, viz. classrooms, laboratories, computing equipment etc. The institution maintains a well maintained, user friendly and resilient infrastructure conducive to teaching, learning and comprehensive development of the educationally weak students. The Teaching Block of the college contains well-equipped and spacious classrooms, department rooms, seminar halls, laboratories and common rooms. Few classrooms are equipped with projectors so that ICT can be used for strengthening academic discourse. The campus is Wi-Fi enabled for the benefit of students and faculty members. The College Library is well-stocked with numerous text books as well as reference books and journals. The college possesses a conference hall, health centre, cafeteria and a gymnasium, too. However, the college has to content with the limited sources of laboratories, computers, printers, teaching and non-teaching staff, classrooms and other facilities. It requires more classrooms before long for which efforts are being made by the college.
