Ref. No.

Date:

The teachers have reported that they have advised the student community to deposit their food waste into the bio-bins and waste food management was thus effectively carried out. The plastic and e-wastes that are quite difficult to be managed were collected and distributed to agencies that deal with e-waste management. The skill enhancement classes on plastic reuse has enabled the student community to make beautiful products out of the worn-out plastics. Thus, promoting plastic recycling. Several saplings are planted at regular intervals by students and staff in 'tree plantation programmes organized by the college and these plants are taken care by the gardener/college staff. The college campus has been declared as 'Plastic free Zone'. So, use of plastic bag is avoided and usage of jute bags and cotton bags are motivated. Water conservation is done through rain water harvesting as college owns a small water body (talab) near the campus.
