Ref. No.

Date:

It has been one of the primary concerns of IQAC to adopt practices, which will provide quality education to students through an effective and meaningful teaching learning process which plays an instrumental role in enhancing quality of academic and cocurricular endeavours of the college in keeping with its vision and mission. IQAC achieves this through the following processes Collecting feedback from stakeholders like students, parents, staff and alumni to facilitate teaching-learning reforms. This helps in obtaining an unbiased and honest opinion about the institutional performance especially in academics. Student feedback of teachers is conducted regularly. A careful analysis of the feedback received is done and communicated to the teachers to enable them to enhance their teaching skills and their relationship with the students. Based on the information received due to implementation of the above two practices, IQAC, post accreditation, has been able to develop a system for conscious, consistent and catalytic action to bring about reforms in teaching learning process, structure, methodologies and learning outcomes.

Departments are encouraged to organize Conferences and Seminars on themes relevant to the educational needs and futuristic growth of the students. Teachers are encouraged to use ICT tools to prepare and deliver their lectures through audios, videos and PPTs.
